

**COMMUNITY INVOLVEMENT IN DECISION MAKING**

The Gloucester County School Board recognizes that the community resources and experience can be useful to schools. The Board may involve citizens both as individuals and as groups to act as advisors and resource people. Public input will be carefully considered by the Board in light of division goals, current practices, and financial feasibility. All final decisions rest solely with the Board.

The Gloucester County School Board will call meetings of the people of the school division for consultation in regard to school interests thereof when it deems such meetings to be necessary.

The Board may appoint a committee of not less than three nor more than seven members for each public school in the school division. The committee's duty will be to advise the members of the School Board with reference to matters pertaining to the school and to cooperate with the School Board in the care of the school property and in the successful operation of the school. Such committees shall serve without compensation.
