

STAFF IDENTIFICATION

All employees will be issued identification badges bearing their photographs. Employees will display the identification badge on an outer garment at all times to show identification as a school employee when performing duties on school property.

This policy is enacted for the safety of students, so that all persons having legitimate business in the schools can be properly identified. The requirement is consistent with security requirements in many businesses and industries and was recommended to the School Board by the Virginia State Police, the Gloucester County Sheriff's Department, and the Center for Safe Schools (Virginia Crime Prevention Association).

The superintendent or a designee will approve enforcement procedures.

ADOPTED: August 1, 1997

REVISED: April 13, 2011
