

## **FOOD SERVICES**

### Generally

Employees of the Gloucester County School Board do not require a student who cannot pay for a meal at school or who owe a school meal debt to do chores or other work to pay for such meals or wear a wristband or hand stamp.

The Gloucester County school division provides free and reduced-price breakfasts and lunches to students according to the terms of the National School Lunch Program and the National School Breakfast Program.

Competitive foods, as defined herein, comply with state and federal requirements.

### Free and Reduced Price Food Services

School officials determine student eligibility based on guidelines established by federal law. Eligible students are provided nutritionally acceptable meals free or at a reduced cost if state and federal resources for school food programs are available. The superintendent or superintendent's designee establishes regulations or procedures as needed to implement this policy.

The criteria for determining a student's eligibility and the procedures for securing free and reduced-price meals is publicly announced at the beginning of each school year and provided to parents of all children in attendance at Gloucester County Public Schools.

If the School Board collects information to determine eligibility for participation in the National School Breakfast Program or the National School Lunch Program, it posts prominently on its website a web-based application for student participation in such program and provides a paper-based application.

Employees of the Gloucester County School Board do not physically segregate, overtly identify, or otherwise discriminate against any child eligible for free or reduced price meals.

### Definitions

**“Competitive food”** means all food and beverages other than meals reimbursed under programs authorized by the National School Lunch Act and the Child Nutrition Act of 1966 available for sale to students on the school campus during the school day. Competitive foods meet the nutrient guidelines established by the Board of Education, including the guidelines for calories, fat, sugar and sodium.

**"Fundraiser"** means a school-sponsored activity where food or nonfood items are sold on the school campus during regular school hours by a school-sponsored organization to raise money for a school-related program or activity. One fundraiser is defined as one or more fundraising activities by one or more school-sponsored organizations that last one school day. If multiple school-sponsored organizations conduct fundraisers on the same day, the combined activities are counted as one fundraiser. If a fundraising activity lasts more than one school day, each subsequent day's activity is considered as one fundraiser and counts toward the total number of permitted fundraisers.

**“School campus”** means all areas of the property under the jurisdiction of the school that are accessible to students during the school day.

“**School day**” means the period from the midnight before to 30 minutes after the end of the official school day.

#### School Sponsored Fundraisers

Each school may conduct school-sponsored fundraisers per school year during which food that does not meet the nutrition guidelines for competitive foods may be available for sale to students. Fundraisers are not conducted during school meal service times.

#### Unpaid Meal Charges

Students who do not have money on account or in hand to cover the cost of a meal at the time of service may be permitted to charge the meal. Students should charge no more than three (3) meals to their accounts.

A student carrying a negative balance equivalent to three (3) or more meals should not be permitted to charge any additional amounts. A student who is not permitted to charge any additional amounts is permitted to buy a meal if the student has cash on hand. Reasonable efforts are used to avoid calling attention to a student’s inability to pay.

Notice of low or negative balances in a student’s meal account are sent to parents and the school principal. Parents are expected to pay all meal charges in full by the last day of the school year.

If a parent regularly fails to provide meal money or send food to school with the student and the student does not qualify for free or reduced benefits, the child nutrition director will inform the principal, who will determine the next course of action, which may include notifying the department of social services of suspected child neglect and/or taking legal steps to recover the unpaid meal charges.

The superintendent or superintendent’s designee ensures that federal child nutrition funds are not used to offset the cost of unpaid meals and that the child nutrition program is reimbursed for bad debt. In order to accomplish those goals, the following procedures are followed:

- At least one written notice is provided to a student and the student’s parent or guardian prior to the student being denied reimbursable meals for exceeding the division’s charge limit.
- If payment of the negative balance is not received within thirty (30) working days of the maximum charge limit being reached, the debt will be turned over to the superintendent or superintendent’s designee for collection. If the debt is not paid within fifteen (15) days of notice being given, it is considered bad debt for the purposes of federal law concerning unpaid meal charges.

#### Recordkeeping

The Gloucester County School Board is responsible for maintaining records that document compliance with this policy. Those records include documentation used to assess the nutritional profile of food items and determine whether a food item is an allowable competitive food, such as recipes, nutrition labels and/or product specifications for the competitive food available for sale to students.

The School Board is also responsible for

- maintaining records documenting compliance with the competitive food nutrition standards for food available for sale in areas that are outside of the control of the school nutrition programs operations,
- ensuring any organization or school activity designated as responsible for food service at the various venues in the school, other than the school nutrition programs, maintains records documenting compliance with the competitive food nutrition standards,

- maintaining records each school year documenting the number of exempt fundraisers, if any, conducted at each school within the division, and
- designating an individual at the division or school level to monitor and ensure compliance with this policy in all areas that are outside the control of the school nutrition programs operation. The designee may not be a school nutrition personnel.
